EAA Chapter 448 Events

EAA Chapter 448 is announcing “Online EAA VMC Club” on the 2nd Wednesday of each month and our “Online Hangar Talk” now on the 4th Wednesday of each month. You can join the fun using your computer, tablet, smartphone, or plain old-fashioned telephone.

EAA Chapter 448 Online Hangar Talk – 4th Wednesday – April 28th at 7 pm “Get In The Air with Basic Med or Sport Pilot Rules”

The U.S. aviation community is celebrating 4 years of Basic Med on May 1st with over 60,000 pilots now flying with Basic Med; many more have been flying with Sport Pilot Rules. Whether you have never considered Basic Med and/or Sport Pilot Rules and have lots of questions or you are already doing it and have it all figured out, please join the discussion. Does your doctor or AME do Basic Med physicals? Please tell us about them and get their names out there. (Reminder to pilots who got Basic Med in 2017 when it started: You are coming up on the 4-year requirement for your doctor to sign your Basic Med paperwork.) Have you found that your aircraft insurance company or FBO/club has special requirements for Basic Med and Sport Pilots? Please join us and share your experience with us!

Prior to each of our meetings, our “Zoom” on-line portal will be open a few minutes before 7 pm for anybody who would like to chat before our meetings start. We also will have chat time after the main presentation for anybody to hang out and share aviation related subjects and more socializing.

Links and phone numbers for the Zoom hosting site will be sent via our EAA Chapter 448 email list. If you are not already receiving our emails, let us know you want to be added: contact@eachapter448.org

Online EAA VMC Club – 2nd Wednesday – April 14th at 7 pm “The Engine Just Skipped One Beat... A Real Life Scenario”

We are restarting our EAA VMC Club on line thanks to Doug Fieri and Rudy Spit. Doug has completed the training to be a VMC Club Coordinator and will be hosting on Wednesday, April 14th at 7 pm. This month’s real-life scenario will be “The Engine Skipped Just One Beat”. We anticipate that all our VMC Club meetings will qualify for FAA Wings Credit and will be held on the 2nd Wednesday of each month. These are very popular gatherings – very interesting and very interactive scenario-driven discussions that serve to challenge us and educate us to make us better pilots.

Everyone Interested in Aviation is Welcome at EAA Chapter 448!

ATTENTION PILOTS! NOTAM for July 4, 2021 Airport Will Be Closed for Fireworks Display 9:00 pm to 9:45 pm

The City of Upland will be hosting a pandemic friendly "stay-in-place" fireworks show the evening of July 4th. The intent is for residents to be able to see the fireworks display from the comfort of their homes and yards. In order to be able to accomplish something like this, the City of Upland has secured permission from Holliday Rock to house the display. Additionally, they have secured FAA permission to have such a display next to an airport.

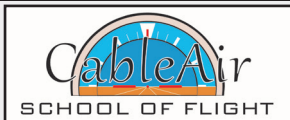

As you can see in the aerial photo, the display area is in the north-western portion of the Holliday Rock property. The projectiles will be launched up to 800' AGL in what is basically the crosswind entry to runway 24 or the downwind leg of runway 6.

In order for the projectiles to be launched, CCB will need to briefly close its runways. The pyrotechnics company indicates the actual projectiles will only be fired for 15 to 20 minutes, they have requested the runway be closed for 45 minutes to accommodate any potential delays.

CCB requests that our pilots plan accordingly should there be a desire to go flying that evening.
