

## CCB Selects New Engineers

After the completion of the Apron Rehabilitation Project, CCB requested Statements of Qualifications for a new firm that can provide engineering services as well as other special services related to the Airport's Capital Improvement Program.

In July, CCB selected Mead and Hunt. This group, which has an office in Ontario, has vast knowledge of GA airports and their impressive list of nationwide clients include the likes of Riverside Municipal Airport, French Valley, and Big Bear. Mead and Hunt impressed CCB management with its experience and knowledge particularly in matters of knowing the requirements needed to interface with the FAA.

First tasks to be completed will be to update the Airport's five-year Capital Improvement Plan (ACIP) which is submitted to the FAA annually. Some of the tasks that will take priority are the second phase of the Apron Rehabilitation Project that will provide new asphalt on the ramp from the western boundary of the project recently completed over to the seven-sided building. Another task that will be in the ACIP is an update to the Airport's Master Plan which was last updated in 2012. Additionally, a project that will be listed that has a high priority is an upgrade to CCB's runway lighting system. The goal of this project is to switch all runway lights, including the beacon, to LED for visibility and energy savings.

With a few exceptions, Mead and Hunt will not be used to plan and construct the 15,000 square foot hangar earmarked to go on the pad created from the last project. They will be used, however, to design the planned parking to go with that project.

Gone west...

## Don Kinsey

**Donald Kinsey** was born on January 26th, 1942, in Scottsdale Arizona and passed away peacefully on May 2nd, 2021, with his family by his side. He is preceded in death by his parents Lucious and Beulah Kinsey, along with his five brothers and four sisters. He is also survived by his wife of many years Donna; his two children Darlene and Donald Kinsey II of Kingman, Arizona; his grandchildren Derek Algae, Daryl Algae and Don Kinsey; and five great grandchildren whom he loved dearly. Donald was a college graduate with a degree in Airframe and Power plant. Donald worked as a carpenter all of his life, he learned the trade from his father and worked alongside his brother James, both taught him everything he knew about the trade. Family came first for Donald aka Don; he loved his family the most.

Don had been involved in many facets of things going on at Cable. Don was the President of the International Tail-dragger Association and put many articles and pictures of events held in many of the airport related publications. Don was an intricate part of planning the fly-ins for the Tail-dragger Club. He planned seasonal programs, parties and many more events that so many joined and loved. Don exemplified being a true flying enthusiast. Don attended Mt SAC airframe and power plant mechanic classes for years where he eventually obtained his degree and throughout the years, he most definitely attended his fair share of several air shows. He was a proud pilot, aircraft owner and integral in being a fixture in some form or fashion at Cable Airport since the 60's. Don was hands on when it came to his plane, no one touched it but him. He had many old collectible muscle cars in addition to being a private pilot and was the only one to work on them. There was nothing that Don could not do especially when he put his mind to it. He would help any way he could at point in any time when someone was in need of a hand and would never ask for anything in return.

Don will be forever loved and missed by those who knew him or those that had the pleasure of meeting him. He was and will always be a treasure. Rest in Peace. - **With Love, Your Family**

## We would like to hear from you...

Do you have stories and photos that you would like to share with the Cable community via the Cable Gram and the Cable website? Or do you have an idea for a story? If so, contact Annette at [aguthrie@cableairport.com](mailto:aguthrie@cableairport.com) and tell us what you have. We are always looking for fun items to share with our family here at Cable Airport!

**EAA Chapter 448 – August Events Planned to Be Live In-Person (and on-line too)!****EAA VMC Club**

2nd Wednesday – August 11th at 7 pm

***“No Way Out”  
A Real Life Scenario*****Hangar Talk**

4th Wednesday – August 25th at 7 pm

***“48 States in 9 Days - Flying the  
Country in a Brand New RV-7A”***

Welcome home for everybody who made the pilgrimage to EAA AirVenture in Oshkosh! We hope you had a great time. You can keep the EAA Spirit of Aviation going all year round by coming out for our EAA Chapter 448 events right here at Cable Airport in the EAA Chapter 448 clubhouse/hangar on the north side of the airport. In addition to our in-person events, we will also continue an on-line option for those who cannot make it to the in-person gatherings. Everyone interested in aviation is welcome to our events.

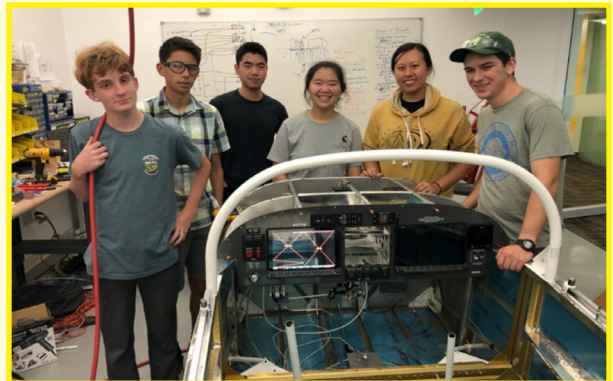

Please join us for **“EAA VMC Club”** which occurs on the **2nd Wednesday of each month** and also for our **“Hangar Talk”** on the **4th Wednesday of each month**. You can attend the **EAA VMC Club** or the **Hangar Talk** either in-person or on-line.

Our VMC Club Coordinator, Doug Fieri, is hosting **EAA VMC Club** on **Wednesday, August 11th at 7 pm**. This month's real-life scenario will be **“No Way Out”**.

We get exposed to lots of great ideas at our EAA VMC Club sessions. These events are very popular, featuring interactive scenario-driven discussions that serve to educate us and make us better pilots (and mechanics) as we think through real-life scenarios and are asked, “What would you do?” As a group, we can come up with more potential courses of action while sitting on the ground at zero airspeed than any of us ever could while speeding through the air. These sessions are helpful to prepare us for the unexpected and perhaps to give us ways to prevent problems before they can occur. Join us for a great discussion with **EAA VMC Club** on **August 11th at 7 pm**.

Join us also later in the month, on the 4th Wednesday, for our **“Hangar Talk”** on **Wednesday, August 25th at 7 pm**. Our feature presentation and discussion will be **“48 States in 9 Days – Flying the Country in a Brand-New RV-7A”** presented by Abraham Harris, EAA Chapter 448 member, student pilot, aircraft builder, and high school student. Abraham will give a presentation about the interesting things he and his dad, David Harris, saw and did in their whirlwind trip around the Lower 48 States in their newly completed RV-7A, straight out of the flight testing program. Abraham will also share some of the things they learned about the components and materials in their airplane, for instance what they learned about some components that were susceptible to heat problems. Please come out and enjoy this great adventure and informative event presented by our youngest chapter member!

Abraham Harris (Left) and other members of the student team who helped build the RV-7A

Prior to each of our EAA Chapter 448 events, our “Zoom” on-line portal will be open a few minutes before 7 pm for anybody who would like to chat and talk aviation before our meetings start.

**Note:** For the in-person events, we will be following whatever current COVID-19 state guidelines are in effect in accordance with our EAA insurance requirements.

Links and phone numbers for the Zoom hosting site will be sent via our EAA Chapter 448 email list. If you are not already receiving our emails, let us know you want to be added: [contact@eaachapter448.org](mailto:contact@eaachapter448.org)

**Have More Fun and Join EAA Chapter 448 As a Member!**

Everybody is always welcome to EAA events. Enjoy even more benefits by joining or renewing your EAA Chapter 448 membership. EAA Chapter 448 membership operates on a calendar year basis. Our dues are only \$30 for the year and your membership includes a spouse. We offer a lot of benefits for your \$30 including access to tools, great educational programs, social activities, and more. You can download a membership application at [bit.ly/EAAMemberApplication](http://bit.ly/EAAMemberApplication) or you can get one from the EAA bulletin board on the east side of our clubhouse which is on the north side of the airport. We would really appreciate your support!

**Everyone Interested in Aviation is Welcome at EAA Chapter 448!**

## Things to Know...

### 2021 Fireworks Show - Run It Back?

Did you come to the 2021 Fireworks Show? If you did, did you have fun? The feedback says "YES", our tenants and guests had a lot of fun!

The 2021 Fireworks Show brought the most people to Cable Airport since the last Air Show which was held in 2017. This was due to the City of Upland choosing to provide a "stay-in-place" event with the premise of allowing residents to be able to see the fireworks display from the comfort of their own yards.

Since the Holliday Rock family agreed to allow the City to use their site to launch the fireworks, it instantly made Cable Airport THE spot to watch the display; unfortunately, CCB was not open to the general public which caused them to find a location around the Airport if they wanted a better view.

Based on how the day went, CCB staff sensed that could be an opportunity to revive an airport-wide event similar to what we had with the Air Shows. After the event, CCB engaged the City in a preliminary discussion about the possibility of future displays being held in the same location. From the feedback, there is an interest from all parties of doing so again.

Initial thoughts would be to turn the 4th of July into a fly-in opening the gates to the public and hosting them during the day and for the fireworks display.

As of now, the City and CCB are researching aspects of such an event such as parking, crowd control, etc. As details emerge, more information will follow.

### Quick update from Maniac-Mikes Café

We would like to thank our current staff for all their hard work. We continue to be understaffed and accepting applications daily. And so we ask our patrons to be patient with us. We are a strong and mighty team but we are small. We will be limiting our seating to accommodate the staff we have. Your experience is important to us and we strive to make sure you enjoy your meal and service no matter the circumstances.

- The MMC Crew

## Club Meetings / Events

**Civil Air Patrol Squadron 25** – Meets every Thursday in the CAP HQ, 6:30pm to 9:00pm. For more info: 909-982-4014

**Cable EAA Chapter 448** – Chapter 448 is meeting in-person with COVID precautions and on-line, 2<sup>nd</sup> & 4<sup>th</sup> Wednesday at 7pm.

For information about the chapter or to join the EAA Chapter 448 email list to get meeting notices & details of on line meetings,

send an email: [contact@eaachapter448.org](mailto:contact@eaachapter448.org)

We are also available at 909-295-2284 cell/text/voicemail

**EAA Young Eagles** – For info, visit [www.YoungEagles.org](http://www.YoungEagles.org).

**Veterans of Foreign Wars Post 10489** – Meets second Wednesday, 7pm to 9pm, at the CAF building, for more info: 909-985-0476

**Antique Aircraft Display Weekend** – Meets first full weekend of the month. Park in any transit area. Check-in at the Foothill Flying Club beginning at 8am. For more info: call Cliff Heathcoat at 909-226-7204

**Exotic Car Show** – Meets second Sunday, 8am to 10:30am. For more info: Dan McGuire at 909-238-9227
