

Fourth of July Event Deemed Successful

The consensus between the City of Upland and Cable Airport is the Fourth of July event was a success. As Bob Cable said, "nobody got hurt, nobody got killed, and nobody got arrested! It was a success!"

It is estimated that approximately 6,000 people gathered at CCB to watch the show and participate in the activities. Many of our tenants were able to entertain their guests in the comfort of their hangars which means there were a lot of parties at CCB on this day. There was a good time had by many.

Now, this is not to say that there weren't a few glitches. Most notably, that CCB tenants that had purchased tickets also needed wristbands which wasn't disclosed until the event began. This just means there are still a few things to tweak leading up to next year's event. And, yes, the City has indicated they would like to do it again next year. Stay tuned.

Cable Airport's Hangar Project is Progressing

On July 11th, Airport staff met with the development staff at the City of Upland to pitch CCB's new building. Staff is happy to report that the project was positively received. So now the Airport's architect, Michael Lancy, who is also a pilot, is busy preparing the site plan and the conditional use permit. Our goal is to have these tasks completed and approved by the second quarter of 2024 with another goal of breaking ground later that year.

EAA VMC Club Question of the Month

When arriving at an uncontrolled airport that uses the standard left traffic pattern, can a pilot of an airplane decide to use right-hand traffic in order to improve safety? An example might be when there are low clouds adjacent to the airport that would potentially raise a safety concern for aircraft making a left-hand pattern, but the other side of the airport is clear with 10-mile visibility. (Keep reading for the answer below!)

Help us keep the Spirit of Aviation alive by joining us at our chapter events right here at Cable Airport in the EAA Chapter 448 clubhouse on the north side of the airport. In addition to our in-person events, we provide an on-line option for those who cannot make it in person. Everyone interested in aviation is welcome at our events.

Contact us at contact@eaachapter448.org to subscribe to our mailing list and receive meeting links and further information for our events.

Our VMC Club coordinator, Doug Fieri, is hosting this month's **VMC Club** on **Wednesday, August 9th at 7 p.m.**

Then join us on **Thursday, August 10th for IMC Club**. Be sure to subscribe to our mailing list for links and further details.

EAA VMC Club Question of the Month – Answer

It would seem that from a regulatory standpoint, right-hand traffic is not allowed at airports where left-hand traffic is prescribed. So at first blush, the answer is "No." (see FAR 91.126)

However, according to AC 90-66B, paragraph 9.1: Left Traffic. Use of standard traffic patterns (left turns) for all aircraft and CTAF procedures by radio-equipped aircraft are required at all airports without operating control towers unless indicated otherwise by visual markings, light gun signals, airport publications, or published approach procedures.

It is recognized that other traffic patterns (right turns) may already be in common use at some airports or that special circumstances or conditions exist that may prevent use of the standard traffic pattern. Right-hand patterns are noted at airports on an aeronautical chart with an "RP" designator and the applicable runway next to the airport symbol.

All that said, if a pilot declares an emergency, that would change the complexion of the issue, but that opens another can of worms.

Come Get Your Cable Hat and Shirt!!!

Come let everyone know you are part of a special club! Hats and T-shirts are now available in the Airport office. Stop by, grab some for your family and friends and show your support for the one of the greatest airports around.

We would like to hear from you...

Do you have stories and photos that you would like to share with the Cable community via the Cable Gram and the Cable website? Or do you have an idea for a story? If so, contact Annette at aguthrie@cableairport.com and tell us what you have. We are always looking for fun items to share with our family here at Cable Airport!

Guest Speaker: TBD

Evren Ozan
Commerical Pilot
Natalie Codd, CFI
July 12, 2023

"Mikey, can you stop screaming and let us have a good time? It's not our fault you forgot your parachute."

Celebrate Aviation!

National Aviation Week is August 19-25, 2023. In 1939, President Franklin Delano Roosevelt established National Aviation Day by presidential proclamation. The significance of August 19th as the day of celebration is that it is the birthday of Orville Wright, who along with his brother Wilbur, is considered the father of aviation.

What is the best way to celebrate? **GO FLY!!!**

NATIONAL
AVIATION
DAY
AUGUST 19

Club Meetings / Events

Civil Air Patrol Squadron 25 – Meets every Thursday in the CAP HQ, 6:30pm to 9:00pm. For more info: 909-982-4014

Cable EAA Chapter 448 – Chapter 448 is meeting in-person with COVID precautions **and** on-line, 2nd & 4th Wednesday at 7pm. For information about the chapter or to join the EAA Chapter 448 email list to get meeting notices & details of on line meetings, send an email: contact@eaachapter448.org

We are also available at 909-295-2284 cell/text/voicemail

EAA Young Eagles – For info, visit www.YoungEagles.org.

Veterans of Foreign Wars Post 10489 – Meets second Wednesday, 7pm to 9pm, at the seven-sided building, for more info: 909-224-3259

Antique Aircraft Display Weekend – Meets first full weekend of the month. Park in any transit area. Check-in at the Foothill Flying Club beginning at 8am. For more info: call the Airport Office at 909-982-6021

Exotic Car Show – Meets second Sunday, 8am to 10:30am. For more info: Dan McGuire at 909-238-9227

Fuel Truck - 7AM to 3PM - 909-942-9880
