## Runway 24's Vertical Approach Slope Indicators (VASI) are back on!

After being out of commission for almost three years, Cable Airport's Runway 24 VASI has been turned back on!

The wait came from a variety of factors from having to get a new VASI box built and installed, to having special baffling put inside the boxes that would keep pilots that are turning final too far north of the Runway 24 centerline from being able to see the VASI until they were more aligned with the centerline, to waiting for the FAA to flight check the VASI to test its angles.

The final steps were completed the week of June 19th. After the FAA flight check, CCB was initially told that the special baffling inside the VASI box didn't meet the specifications it should have; however, after the FAA reviewed the data, they discovered the errors were minor and within the FAA tolerances so they asked if we wanted them to correct the baffling or go with how it is. After envisioning another 2-3 year wait, CCB said "Turn it on!"

## EAA Chapter 448 – April Events

**IMC Club**  
Thursday, June 13th  
7 pm

**VMC Club**  
Wednesday, June 12th  
7 pm

### EAA VMC Club Question of the Month

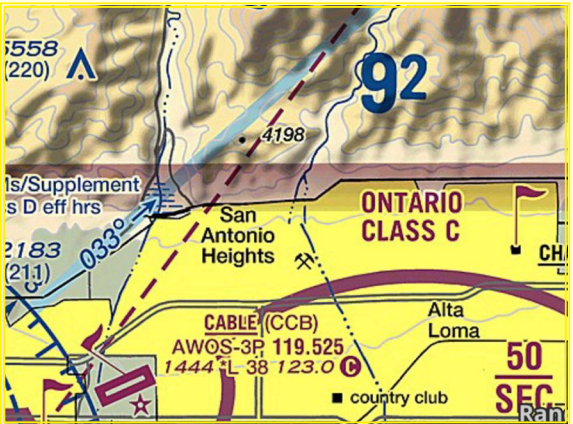

What do the large print blue numerals on a sectional chart represent?

(Keep reading for the answer below!)

Help us keep the Spirit of Aviation alive by joining us at our chapter events right here at Cable Airport in the EAA Chapter 448 clubhouse on the north side of the airport. In addition to our in-person events, we provide an on-line option for those who cannot make it in person. Everyone interested in aviation is welcome at our events.

Contact us at [contact@eaachapter448.org](mailto:contact@eaachapter448.org) to subscribe to our mailing list and receive meeting links and further information for our events.

Our VMC Club coordinator, Doug Fieri, is hosting this month's **VMC Club** on **Wednesday, June 12th** at **7 p.m.**

Join us on **Thursday, June 13th** for **IMC Club**. This will be informative

meeting on the 6th leading cause of General Aviation accidents, where 95% of these accidents are attributed to pilot error. We can do better! Be sure to subscribe to our mailing list for links and further details.

### EAA VMC Club Question of the Month – Answer

The numerals described are the Maximum Elevation Figures (MEFs) printed on sectional charts. The Maximum Elevation Figure (MEF) represents the highest elevation within a quadrant, including terrain and other vertical obstacles (towers, trees, etc.). A quadrant on a sectional chart is the area bounded by ticked lines dividing every 30 minutes of latitude and every 30 minutes of longitude. MEF figures are rounded up to the nearest 100-foot value, and the last two digits of the number are not shown.

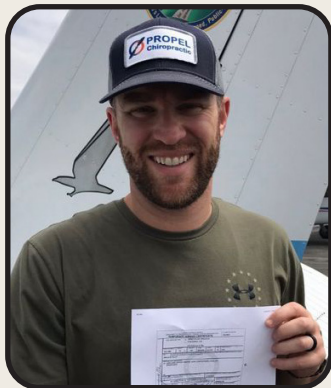

### Come Get Your Cable Shirt!!!

Let everyone know you are part of a special club! The "Cable County Club" where membership is exclusive!

Shirts are available for purchase in the Airport Office. Cost is \$20 each and we have t-shirts sizes in Extra Small, Small, Medium, Large, Extra Large, 2XL, and 3XL. Stop by and grab some for your family and friends.

### We would like to hear from you...

Do you have stories and photos that you would like to share with the Cable community via the Cable Gram and the Cable website? Or do you have an idea for a story? If so, contact Annette at [aguthrie@cableairport.com](mailto:aguthrie@cableairport.com) and tell us what you have. We are always looking for fun items to share with our family here at Cable Airport!

### Seen at CCB:

During the early evening of Friday, June 16, 2023, CCB received a visit from N3006, a 1946 DC3 owned and operated by the Flying Circus LLC out of the Chino Airport (CNO). While it is not known who the pilot was, we do know that Cable's own Daniel Wotring was in the right seat most likely instructing the pilot.

And based on flight tracking data for that flight, it can be seen that the DC3 had been flying for about 4 hours initially coming from CNO going to Burbank (BUR), then from BUR to Paso Robles (PRB), from PRB to CCB, and then after two landings and takeoffs, it proceeded back to CNO.

When N3006 first arrived, there was only one car in the picnic area and a couple of bystanders on the airport. By the time it left CCB's airspace, the picnic area was full of cars and dozens of people on the airport had come towards the runway to view this beautiful flying machine in action.

### Club Meetings / Events

**Civil Air Patrol Squadron 25** – Meets every Thursday in the CAP HQ, 6:30pm to 9:00pm. For more info: 909-982-4014

**Cable EAA Chapter 448** – Chapter 448 is meeting in-person with COVID precautions and on-line, 2<sup>nd</sup> & 4<sup>th</sup> Wednesday at 7pm. For information about the chapter or to join the EAA Chapter 448 email list to get meeting notices & details of on line meetings, send an email: [contact@eaachapter448.org](mailto:contact@eaachapter448.org)

We are also available at 909-295-2284 cell/text/voicemail

**EAA Young Eagles** – For info, visit [www.YoungEagles.org](http://www.YoungEagles.org).

**Veterans of Foreign Wars Post 10489** – Meets second Wednesday, 7pm to 9pm, at the seven-sided building, for more info: 909-224-3259

**Antique Aircraft Display Weekend** – Meets first full weekend of the month. Park in any transit area. Check-in at the Foothill Flying Club beginning at 8am. For more info: call the Airport Office at 909-982-6021

**Exotic Car Show** – Meets second Sunday, 8am to 10:30am. For more info: Dan McGuire at 909-238-9227

Fuel Truck - 7AM to 3PM - 909-942-9880
