## Rusty Pilots Seminar

Been a while since you've flown? Join us at DC Flight Simulation for an AOPA Foundation Rusty Pilots Seminar and take the first step toward getting back in the cockpit!

Saturday, November 14, 2026
9:00 AM–12:30 PM PST
DC Flight Simulation at Cable Airport (CCB)
1749 W 13th St, Upland, CA 91786
FREE for AOPA members!

AOPA Foundation presenter Steve Bateman will help you refresh your aviation knowledge alongside fellow rusty pilots. No FAA check ride or test, plus 2–3 hours of ground instruction toward your flight review. WINGS credit is available.

Come meet the DC Flight Simulation team and reconnect with your local aviation community. Pre-registration is encouraged—seats fill up fast!

## EAA Chapter 448 –November Events

**VMC Club**
**Wednesday, November 11th**
**7 pm**

**Question of the Month**

**You are returning from a lengthy cross-country flight and, due to excessive winds at your planned refueling stop, you are low on fuel. You now need to transition Class B airspace to get to the closest destination where fuel is available. How can you ensure you don't get routed around the airspace and face the danger of fuel exhaustion?**

**(Keep reading for the answer below!)**

**Whether you're a seasoned pilot, a student working on your license, or someone who just loves watching airplanes, EAA Chapter 448 welcomes you. We meet monthly (every second Wednesday) at our clubhouse on the north side of Cable Airport for a combined chapter meeting and VMC Club. Come swap stories, sharpen your aeronautical knowledge, and connect with fellow aviation enthusiasts. We also offer an online option if you can't make it in person.**

**Join us for this month's Chapter Meeting and VMC Club on Wednesday, November 11th at 7 p.m.**

**Reach out at contact@eaachapter448.org to get on our mailing list for meeting links and chapter news.**

**Question of the Month – Answer**

**The best option is to contact ATC. You can declare "minimum fuel" if you will be eating into your reserve fuel or declare an emergency. Either way, ATC should be able to provide priority handling and thus avoid sending you around the Class B.**

**For more information, see Aeronautical Information Manual (AIM) 5-5-15, Minimum Fuel Advisory.**

## Civil Air Patrol Corner

CAP pilots can participate in a variety of missions, including search and rescue, airborne photography, disaster assessment and survey missions, and cadet orientation flights. If you are a pilot looking for an opportunity to put your aviation skills to work while serving your community and country, we would love to talk with you.

We need senior members, too!

You don't have to be a pilot to make a difference. If you have an interest or hobby such as drones, amateur (ham) radio, aviation, emergency services, aerospace education, communications, or simply have a desire to volunteer and serve your community, Squadron 25 may be the place for you.

Come see what Civil Air Patrol and Cable Composite Squadron 25 are all about!

For more information about joining or supporting our squadron, please feel free to reach out to me directly.

1st Lt Dennis R. King
Squadron Commander
Cable Composite Squadron 25
Civil Air Patrol (626) 367-4034
